## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: ✓

With respect to claims 1-9, the prior art alone or in combination does not teach the limitation of an anode member for a solid electrolytic capacitor comprising: at least one groove formed in a valve metal powder layer, wherein the valve metal powder layer having the at least one groove formed therein sintered to form an anode member.

With respect to claims 10-17, the prior art alone or in combination does not teach the limitation of a method of producing an anode member for a solid electrolytic capacitor comprising: forming a valve metal powder layer on at least one plate surface of a valve metal thin plate, and forming at least one groove in the valve metal powder layer, and sintering the valve metal powder layer having the at least one groove formed therein. <sup>d</sup> *OK 3/29/05*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Response to Arguments*

2. The applicant has argued that Wada is silent with respect to a solid electrolytic capacitor comprising: at least one groove formed in a valve metal powder layer, wherein the valve metal powder layer having the at least one groove formed therein sintered to

form an anode member, and forming at least one groove in the valve metal power layer, and sintering the valve metal powder layer having the at least one groove formed therein. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T. Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.
